COMMUNITY FOUNDATION WEEK

For Immediate Release
Monday, November 12, 2018

November 12th – 18th, the M&M Area Community Foundation will join community foundations across the nation in celebrating Community Foundation Week. Created by Presidential decree in 1989, the designation recognizes the importance of community foundations and their partnerships with public, private and nonprofit sectors as they collaborate to expand capacity and build community.

Community foundations are playing an ever-increasing role as communities seek a to capture the generosity of both individual and corporate donors. Foundations provide guidance for charitable giving and the development of public support for strategic action vital to healthy growth.

“Our work succeeds because more and more, people are coming to the realization that a better future depends on the actions we take today,” said Paula Gruszynski, MMACF Executive Director. “Very little can be accomplished without strong leadership and the resources to support a plan of action. Our Board believes our legacy will be defined through collaboration, strategic planning and a willingness to lead,” she concluded.

In addition to directly impacting our community, the Foundation serves as a resource to area nonprofit groups to support their mission and expand their impact.

To make an impact in your community, consider an endowment with the M&M Area Community Foundation. The Foundation will help you identify causes and needs that match your passion and values. For more information, please contact the MMACF at 906-864-3599.
